DIMIR CONTROL

There's only so much fun to be had in a game of *Magic*™, and you're going to have all of it. Thwart your opponent's plans before they can even begin, then close things out with a torrential threat of your own.

ORZHOV HUMANS

You've always been a people person. Go wide with an army of humans, build them up nice and strong with anthem effects, then seize the victory that is rightfully yours!

IZZET PHOENIX

Rise from the ashes! Take control of the early game, then cast tons of spells to awaken your slumbering monsters and scorch your foe with Arclight Phoenix!

GRUUL STOMPY

Subtlety is not your strong suit. Drop a mana dork early on and deploy massive threats ahead of schedule. The dragons and beasts will take it from there!
